

MUHAMMAD ABDULLAH KHAN

North Karachi, Sindh, Pakistan | theabdullahdevstudio@gmail.com | LinkedIn: linkedin.com/in/abdullahdevstudio | GitHub: github.com/abdullah-devstudio

PROFESSIONAL SUMMARY

Motivated Frontend Developer skilled in HTML5, CSS3, and modern JavaScript (ES6+), with hands-on experience building responsive, user-focused web applications and integrating Firebase for authentication and real-time data. Proven ability to design, develop, and deploy real-world projects independently, with a strong passion for clean code, problem-solving, and continuous learning in web development.

TECHNICAL SKILLS

Markup & Styling: HTML5 (semantic markup, accessibility best practices), CSS3 (Flexbox, Grid, Responsive Design, Media Queries)

Programming: JavaScript (DOM Manipulation, ES6+, Event Handling, Asynchronous JS, Fetch API)

Backend & Database: Firebase (Authentication, Realtime Database/Firestore, Hosting)

Version Control: Git & GitHub (branching, merging, pull requests, version tracking)

Other: Responsive Web Design, Cross-Browser Compatibility, UI/UX Fundamentals, RESTful API Integration, Debugging & Performance Optimization

PROJECT EXPERIENCE

Career Pilot — AI-Based Career Guidance Web Application

Frontend Developer | Personal Project

Designed and developed an AI-powered career guidance platform to help users identify suitable career paths based on their interests and skill sets, improving decision-making clarity for over 50+ test users.

Built a fully responsive, mobile-first interface using HTML5, CSS3 (Flexbox & Grid), and JavaScript, ensuring seamless usability across devices and screen sizes.

Integrated Firebase Authentication and Database to manage secure user sessions and store real-time user data.

Implemented dynamic DOM manipulation and ES6+ JavaScript logic to deliver personalized, interactive recommendations, reducing manual navigation steps by an estimated 40%.

EDUCATION

Intermediate in Computer Science

College 5-L New Karachi | 2026

Matriculation in Computer Science

Little Flower Secondary School | 2024

TRAINING

Web Development Training — Banoqabil Institute (2026)

Completed a hands-on training program covering HTML5, CSS3, JavaScript, responsive design, and Git/GitHub workflow, with a focus on building real-world, deployable web projects.
